Site Plans and agency approvals must be submitted at least three weeks prior to placement on an agenda for consideration. All site plans must be signed and sealed. Any application or site plan that does not satisfy the information requirements of this Section shall be considered incomplete, and shall be returned to the applicant.
2. **Technical Review.** The applicant shall distribute copies of the site plan and application to other local agencies or departments with jurisdiction for comment on any problems the plans might pose prior to submittal to the Township. Prior to Planning Commission consideration, the Zoning Administrator shall distribute copies of the site plan, any required agency reviews, and the application to designated Township officials and the Township consultants for review and comment. Agency approvals and Township consultants reviews must be received prior to Planning Commission consideration of the site plan.
3. **Planning Commission Consideration of the Site Plan.** The Planning Commission shall review the site plan, together with any reports and recommendations from Township officials, the Township Planner, other Township consultants, and other reviewing agencies. The Planning Commission shall make a determination based on the requirements of this Ordinance and the standards of Section 17.01L, Standards for Site Plan Approval. The Planning Commission is authorized to table, approve, approve subject to conditions or, deny the site plan as follows:
 - a) **Tabling.** Upon determination by the Planning Commission that a site plan is not sufficiently complete for approval or denial, failure of the applicant to attend the meeting or upon request by the applicant, the Planning Commission may postpone consideration until a later meeting.
 - b) **Denial.** Upon determination that a site plan does not comply with the standards and regulations set forth in this Ordinance, or would require

extensive revisions to comply with said standards and regulations, the site plan shall be denied.

If a site plan is denied, a written record shall be provided to the applicant listing the reasons for such denial. Failure of the applicant or agent to attend two (2) or more meetings shall be grounds for the Planning Commission to deny site plan approval.

- c) **Approval.** Upon determination that a site plan is in compliance with the standards of this Ordinance, the site plan shall be approved.
- d) **Approval Subject to Conditions.** The Planning Commission may approve a site plan, subject to any conditions necessary to address necessary modifications; ensure that public services and facilities can accommodate the proposed use; protect significant site features; ensure compatibility with adjacent land uses; or otherwise meet the intent and purpose of this Ordinance. Such conditions may include the need to obtain variances, or approvals from other agencies.

4. **Recording of site plan action.** Planning Commission action on the site plan shall be recorded in the Planning Commission meeting minutes, stating the name and location of the project, most recent plan revision date, and conditions or grounds for the Planning Commission's action.

The applicant shall be responsible for obtaining all necessary permits or approvals from applicable outside agencies, prior to Planning Commission submittal.

E. Construction Plans

Where detailed construction or engineering plans are required by the Township, Monroe County or other agency with jurisdiction, the applicant shall submit a copy of such plans to the Building Official for review. The Building Official or designated Township consultants shall verify that the site design and improvements shown on the construction or engineering plans are consistent with the approved site plan, except for changes that do not materially alter the approved site design, or that address any conditions of site plan approval.

Construction or engineering plans that are not consistent with the approved site plan shall be subject to review and approval by the Planning Commission as an amended site plan, prior to the start of development or construction on the site.

F. Approval of Phased Developments

The Planning Commission may grant approval for site plans with multiple phases, subject to the following:

1. The site design and layout for all phases and outlots shall be shown on the site plan to ensure proper development of the overall site.
2. Improvements associated with each phase shall be clearly identified on the site plan, along with a timetable for development. Development phases shall be designed so that each phase will function independently of any improvements planned for later phases.

3. Each future phase shall be subject to a separate site plan review by the Planning Commission, and shall be required to meet all applicable Ordinance standards effective at the time of such review.

G. Site Plan Resubmission

A site plan that has been denied may be revised by the applicant to address the reasons for the denial and then resubmitted for further consideration. The resubmitted site plan shall be subject to the same requirements, review fees, and approval procedures as a new application for site plan approval.

H. Expiration of Site Plan Approval

Site plans shall expire 365 days after the date of approval, unless the construction plan for the project has been submitted to the Township for review.

Upon written request received by the Township prior to the expiration date, the Planning Commission may grant one (1) extension of final approval for up to one (1) year, provided that site conditions have not changed in a way that would affect the character, design or use of the site, and that the approved site plan remains in conformance with all applicable provisions of this Ordinance.

I. Rescinding Site Plan Approval

Site plan approval may be rescinded by the Planning Commission upon determination that the site has not been improved, constructed or maintained in compliance with approved permits, site plans, or conditions of site plan or special use approval. Such action shall be subject to the following:

1. **Public hearing.** Such action may be taken only after a public hearing has been held in accordance with the procedures set forth in Section 17.03, Public Hearing Procedures, at which time the owner of an interest in land for which site plan approval was sought, or the owner's designated agent, shall be given an opportunity to present evidence in opposition to rescission.
2. **Determination.** Subsequent to the hearing, the decision of the Planning Commission with regard to the rescission shall be made and written notification provided to said owner or designated agent.

J. Revisions to Approved Site Plans

The Zoning Administrator may administratively review minor revisions to an approved site plan or forward such plans to the Township Consultants for a determination, provided that such changes do not materially alter the approved site design, intensity of use or demand for public services. Revisions to an approved site plan that are not considered by the Zoning Administrator to be minor shall be reviewed by the Planning Commission as an amended site plan.

K. Compliance with an Approved Site Plan

It shall be the responsibility of the landowner, and the owner or operator of the use(s) for whom site plan approval has been granted, to develop, improve and maintain the site, including the use, structures, and all site elements in accordance with the approved site plan and all conditions of approval, until the property is razed, or a new site plan is approved. Failure to comply with the provisions of this Section shall be a violation of this Ordinance and shall be subject to the same penalties appropriate for a use violation.

To ensure compliance with this Ordinance, the approved site plan, and any conditions of site plan approval, the Planning Commission, Township Engineer, Board of Trustees or Zoning Administrator may require that an irrevocable performance guarantee be deposited with the Township Treasurer, subject to the standards of Section 18.203, Fees and Performance Guarantees. The amount of the performance guarantee shall be determined by the Township Engineer.

L. Standards for Site Plan Approval

The following criteria shall be used as a basis upon which site plans will be reviewed and approved, approved with conditions, or denied:

1. **Adequacy of Information.** The site plan includes all required information in a complete and understandable form, provides an accurate description of the proposed uses, and complies with all applicable Ordinance requirements.
2. **Site Appearance and Coordination.** The site is designed in a manner that promotes the normal and orderly development of surrounding lands, and all site design elements are harmoniously organized in relation to topography, adjacent facilities, traffic circulation, building orientation, and pedestrian access.
3. **Preservation of Site Features.** The site design conserves natural features to the extent feasible. Such features may include wetlands, topography, tree rows and hedgerows, wooded areas, and significant individual trees.
4. **Access and Circulation.** Drives, streets, parking, site access and other vehicle-related elements are designed to minimize traffic conflicts on adjacent streets and promote safe and efficient traffic circulation within the site. In addition, adequate pedestrian access has been provided, which is in compliance with barrier-free access standards.
5. **Parking and Loading.** Off-street parking lots and loading areas are arranged and located to accommodate the intensity of proposed uses, minimize conflicts with adjacent uses, and promote shared-use of common facilities where feasible.
6. **Landscaping and Screening.** Landscaping and screening are provided in a manner that adequately buffers adjacent land uses and screens off-street parking, mechanical appurtenances, loading and unloading areas and storage areas from adjacent residential uses and public rights-of-way.
7. **Exterior Lighting.** All exterior lighting fixtures are designed, arranged and shielded to minimize glare and light trespass, prevent night blindness and vision impairments, and maximize security.
8. **Impact upon Public Services.** The impact upon public services (including utilities, streets, police and fire protection, public schools and public sidewalks/pathways) will not exceed the existing or planned capacity of such services.
9. **Drainage and Soil Erosion.** Adjoining lakes, rivers, streams, lots, and road rights-of-way will not be adversely impacted by stormwater runoff and sedimentation.
10. **Emergency Access and Vulnerability to Hazards.** All sites and buildings are designed to allow convenient and direct emergency access, and the level of vulnerability to injury or loss from incidents involving hazardous materials or processes will not exceed existing or planned emergency response capabilities.

Section 17.02 Uses after Special Approval

A. Purpose

This Section provides procedures and standards for special uses of land or structures that because of their unique characteristics require special consideration in relation to the welfare of adjacent properties and the community as a whole. Special uses include those uses that:

1. Serve an area, interest or purpose that extends beyond the borders of the Township;
2. Create particular problems of control in relation to adjoining uses or districts;
3. Have detrimental effects upon public health, safety or welfare; or
4. Possess other unique characteristics that prevent such uses from being appropriate in all locations as a principal use permitted by right in a particular zoning district.

This Section is intended to provide a consistent and uniform method for review of special use applications, ensure full compliance with the standards contained in this Ordinance, achieve efficient use of land, prevent adverse impacts on neighboring properties and districts, and facilitate development in accordance with the objectives of the Master Plan.

B. Application Requirements

Special use applications shall be submitted in accordance with the following:

1. **Eligibility.** The application shall be submitted by the operator of the use or owner of an interest in the land or structure(s) for which special use approval is sought, or by the owner's designated agent. The applicant or agent shall be present at all scheduled review meetings. Applications that are found by the Zoning Administrator to be incomplete or inaccurate shall be returned to the applicant.
2. **Application.** Special use applications submitted to the Township shall include the following information:
 - a) Contact information for the applicant and landowner, and proof of ownership. If the applicant leases the property, the owner's signed and dated authorization for the application shall be provided.
 - b) Address, location and tax identification number of the parcel.
 - c) A detailed description of the proposed use.
 - d) A site plan, as required by Section 17.01, Site Plan Review.
 - e) Appropriate review fees, as determined by the Township Board of Trustees.
 - f) Any other information deemed necessary by the Zoning Administrator or Planning Commission to determine compliance with this Ordinance.

C. Special Use Review Procedure

Special use applications shall be reviewed in accordance with following procedures:

1. **Coordination with Site Plan Review.** A site plan associated with a special use shall not be approved unless the special use has first been approved. The Planning Commission may, at its discretion, consider special use and site plan applications at the same meeting.
2. **Technical Review.** Prior to Planning Commission consideration, the application materials shall be distributed to appropriate Township officials and the Township Planner for review and comment. The Zoning Administrator may also submit the application materials to designated Township consultants for review.
3. **Public Hearing.** A public hearing shall be held for all special uses in accordance with Section 17.03, Public Hearing Procedures.

4. **Planning Commission Consideration.** Subsequent to the hearing, the Planning Commission shall review the application for special use approval, together with any reports and recommendations from Township officials, the Township Planner, other Township consultants, and other reviewing agencies, along with any public comments. The Planning Commission shall then make a determination based on the requirements of this Ordinance and the standards contained in Section 17.02H, Standards for Special Use Approval. The Planning Commission is authorized to table, approve, approve subject to conditions or deny the special use as follows:
- a) **Tabling.** Upon determination by the Planning Commission that a special use application is not sufficiently complete for approval or denial, failure of the applicant to attend the meeting, or upon request by the applicant, the Planning Commission may postpone consideration until a later meeting.
 - b) **Denial.** Upon determination that a special use application is not in compliance with the provisions of this Ordinance, including Section 17.02H, Standards for Special Use Approval, or would require extensive modifications to comply with said standards and regulations, the special use shall be denied. If a special use is denied, a written record shall be provided to the applicant listing the reasons for such denial. Failure of the applicant to attend two (2) or more meetings shall be grounds for the Planning Commission to deny the special use.
 - c) **Approval.** The special use may be approved by the Planning Commission upon determination that it is in compliance with the provisions of this Ordinance, including Section 17.02H, Standards for Special Use Approval. Upon approval, the special use shall be deemed a conforming use permitted in the district in which it is proposed, subject to site plan approval, and any conditions imposed on the use. Such approval shall affect only the lot or area thereof upon which the use is located.
 - d) **Approval Subject to Conditions.** The Planning Commission may approve a special use subject to reasonable conditions:
 - (1) Designed to protect natural resources, the health, safety, welfare, and social and economic well-being of users or patrons of the use under consideration, residents and landowners immediately adjacent to the proposed use, or the community as a whole; or
 - (2) Related to the valid exercise of the police power, and the impacts of the proposed use; or
 - (3) Necessary to meet the intent and purpose of this Ordinance, related to the standards established in this Ordinance for the special use under consideration, and necessary for compliance with those standards.
 - e) **Recording of Special Use Action.** Planning Commission action on the special use shall be recorded in the Planning Commission meeting minutes, stating the name, description, and location of the proposed use; address and tax identification number of the parcel; and the grounds for the Planning Commission's action. The Zoning Administrator shall keep one (1) copy of the written record on file in the Township, and shall forward one (1) copy to the applicant as evidence of special use approval and also give the effects of the approval.
 - f) **Effect of Approval.** Special use approval runs with the land. As long as the use remains as approved, a change of tenant or owner will not affect the special approval. An expansion of use or change of the use shall require new special use approval.

D. Resubmission after Denial

A special use application that has been denied shall not be resubmitted for a period of 365 days from the date of denial, except on grounds of new evidence or proof of changed conditions found by the Planning Commission to be valid.

E. Appeals of Special Use Decisions

The Zoning Board of Appeals shall not have the authority to consider appeals of special use determinations by the Planning Commission.

F. Expiration of Special Use Approval

Special use approval shall expire 365 days after the date of approval, unless the use has been established on the site, or the construction plan associated with the special use has been submitted for review. Special use approval shall also expire upon expiration of the approved construction plan associated with a special use.

Upon written request received by the Township prior to the expiration date, the Planning Commission may grant one (1) extension of up to 365 days, provided that the approved special use conforms to current Zoning Ordinance standards.

G. Rescinding Special Use Approval

Approval of a special use may be rescinded by the Planning Commission upon determination that the use has not been improved, constructed or maintained in compliance with this Ordinance, approved permits, site plans, or conditions of site plan or special use approval. Such action shall be subject to the following:

1. **Public hearing.** Such action may be taken only after a public hearing has been held in accordance with the procedures set forth in Section 17.03, Public Hearing Procedures, at which time the operator of the use or owner of an interest in the land or structure(s) for which special use approval was sought, or the owner's designated agent, shall be given an opportunity to present evidence in opposition to rescission.
2. **Determination.** Subsequent to the hearing, the decision of the Planning Commission with regard to the rescission shall be made and written notification provided to said owner, operator or designated agent.

H. Standards for Special Use Approval

Approval of a special use shall be based upon the determination that the proposed use complies with all applicable requirements of this Ordinance, and all of the following standards as deemed applicable to the use by the Planning Commission:

1. **A Documented Need Exists for the Proposed use.** A documented need exists for the proposed use within the community.
2. **Compatibility with Adjacent Uses.** The special use is compatible with adjacent uses and the existing or intended character of the zoning district and area. The use will not have an adverse impact upon or interfere with the development, use or enjoyment of adjacent properties, or the orderly development of the neighborhood.
3. **Compatibility with the Master Plan.** The special use location and character is consistent with the general principles, goals, objectives, and policies of the adopted Master Plan.
4. **Compliance with Applicable Regulations.** The proposed special use is in compliance with all applicable Ordinance provisions.
5. **Impact upon Public Services.** The impact of the special use upon public services will not exceed the existing or planned capacity of such services; including utilities, roads, police and fire protection services, drainage structures, refuse disposal, and availability or capacity of water and sewage facilities.
6. **Traffic Impacts.** The special use is designed and located in a manner that minimizes any adverse traffic impacts caused or exacerbated by the use.

7. **Detrimental Effects.** The proposed special land use shall not involve any activities, processes, materials, equipment, or conditions of operation, and shall not be located or designed so as to be detrimental or hazardous to public health, safety, and welfare.

In determining whether this requirement has been met, consideration shall be given to the level of traffic, noise, vibration, smoke, fumes, odors, dust, glare, and light.

8. **Isolation of Existing Uses.** Approval of the special use location will not result in a small residential or non-residential area being substantially surrounded by incompatible uses.

9. **Environmental and Public Health, Safety, and Welfare Impacts.** The location, design, activities, processes, materials, equipment, and operational conditions of the special use will not be detrimental or injurious to the environment or the public health, safety, and welfare by reason of traffic, noise, vibration, smoke, fumes, odors, dust, glare, light, drainage or other adverse impacts as set by state, federal or other agencies with jurisdiction.

I. Compliance with Special Use Approval

It shall be the responsibility of the owner of the property and the operator of the use for which special use approval has been granted to develop, improve, operate and maintain the use, including the site, structures and all site elements, in accordance with the provisions of this Ordinance and all conditions of special use approval until the use is discontinued. Failure to comply with the provisions of this Section shall be a violation of the use provisions of this Ordinance and shall be subject to the same penalties appropriate for a use violation.

The Zoning Administrator or designee may make periodic investigations of developments for which a special use has been approved. Noncompliance with Ordinance requirements or conditions of approval shall constitute grounds for the Planning Commission to rescind special use approval.

Section 17.03 Public Hearing Procedures

The body charged with conducting a public hearing required by this Ordinance shall, upon receipt of a completed application, select a reasonable time and place for such hearing. Such hearings shall be held in accordance with the Michigan Zoning Enabling Act, P.A. 110 of 2006, as amended, and the following:
